

Pre-schoolers

Our Pre-schooler programme aims to give our older children a happy and smooth transition into primary education.

Our fully qualified nursery teacher and her team ensure that each child benefits appropriately from the Early Years Curriculum in the six key learning areas:

- personal, social & emotional development
- mathematical knowledge
- communication, language & literacy
- physical development
- knowledge & understanding of the world
- creative development

A place to learn

Learning takes place in a relaxed play environment both indoors and outside. Our stunning garden area gives endless opportunities for fun and discovery, whilst a state-of-the-art indoor play area is an all-weather treasure chest of enjoyment and education.

For extra variety, we arrange exciting, topic-related visits from people and professionals such as the Fire Service, Zoolab and theatre groups.

Being me

The pre-school period is also a time to polish up all the softer skills that will help boost confidence and achievement at school. Getting along with others, taking turns, making choices and developing the skills and confidence for greater independence are all important examples.

New horizons

Kidz@Work offers a range of additional options to enrich and intrigue pre-schoolers:

- **Sporty Kidz** – classes to promote healthy activity and develop individual skills
- **Continental Kidz** – why not get a head start in French?
- **Rhythmic Kidz** – building foundations for budding musicians, or just for having fun!
