

# Toddlers

Our Toddler programme is designed especially for 2-3 year olds, a time when communication becomes ever more diverse and the possibilities for movement and pretend play are explored with a passion!

It's the age when little ones love to test the boundaries, so our generous staff ratios are important in ensuring that our young explorers are always safe and sound.

## Key carers

Your child's Key Carer updates you on all the news and activities of the day via a personal Daily Diary. This records the aims that you and your Key Carer have planned together, shows how your child is progressing, feeds back on the day's fun, food and snooze times and enables you to celebrate every little achievement. In addition, your Key Carer will be delighted to give you more feedback and discuss ideas for the future at our regular Parents' Evenings.

## Activities

The Kidz@Work world is an amazing place for a toddler. So many activities and experiences to choose from, lots of friends to play with, an increasing sense of confidence and independence, and always, the knowledge that kind, caring hands are there to help and encourage when feeling unsure. Sensory-based holistic play and Treasure

Troves inspire small explorers. Our toddlers start to learn skills that build for the future: words join up with pictures, and certain letters and names begin to have special meaning... "M is for Mummy" is a discovery to treasure!

## Starting early

Optional programmes get little ones off to a great start in a variety of skills and interests, including:

- **Sporty Kidz** – fitness classes for mini Olympians
- **Rhythmic Kidz** - discovering sound, rhythm, melody - and fun!
- **Dance Kidz** - learning confidence and control through movement and music.
